## Procedure code conversion chart for disposable medical supplies

The following table lists the Healthcare Common Procedure Coding System (HCPCS) procedure codes and modifiers, if applicable, that providers will be required to use when submitting prior authorizations (PAs) and claims for disposable medical supplies (DMS). Refer to the user notes in brackets for Wisconsin Medicaid's description of the DMS item. A future *Wisconsin Medicaid and BadgerCare Update* will notify providers of the specific effective dates for Wisconsin Medicaid's implementation of the federal Health Insurance Portability and Accountability Act of 1996 (HIPAA). For other PA requirements, such as quantity limitations, providers should refer to the DMS Index that will be published prior to HIPAA implementation.
